

Manual for use:
***REHIRE INACTIVE
EMPLOYEE***
(Re-entry)

In SAP SuccessFactors

REHIRE INACTIVE EMPLOYEE

What is it?

This option will allow you *to reinstate* an employee who had been with the company before. Here you will be able to manage their registration, without having to create it from scratch.

BENEFITS

REHIRE INACTIVE EMPLOYEE

The information of the employee to rehire will be preloaded.

You will only need to update the data with the new position information to rehire

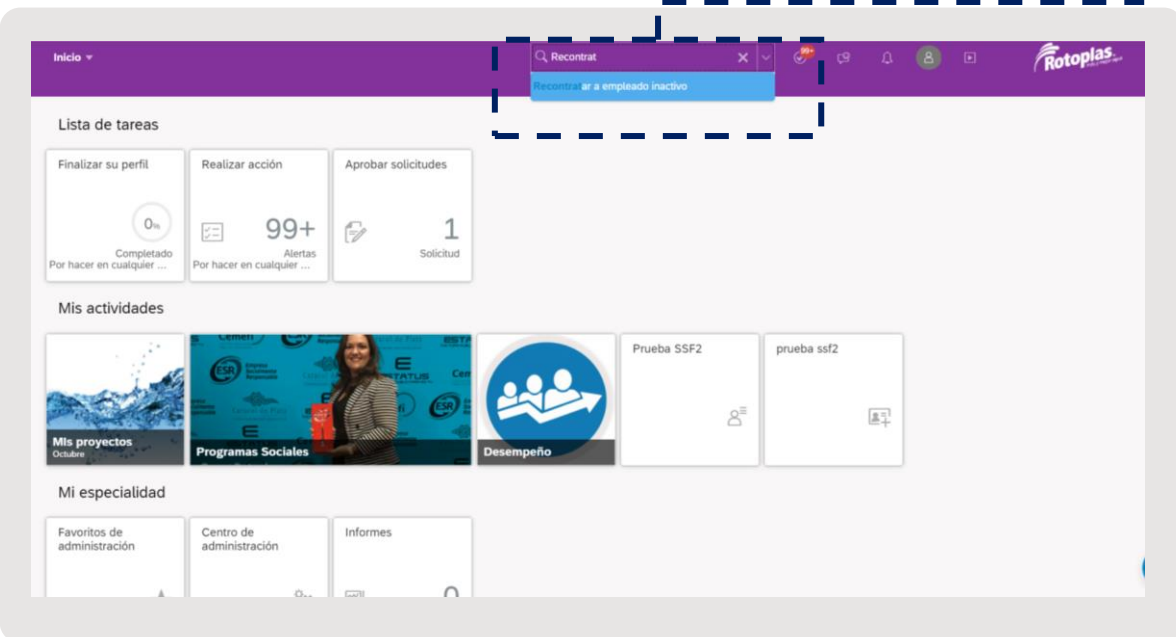

The employee number will be maintained and you will have the option to observe the seniority date directly here.

REHIRE INACTIVE EMPLOYEE

1

Enter in the search bar

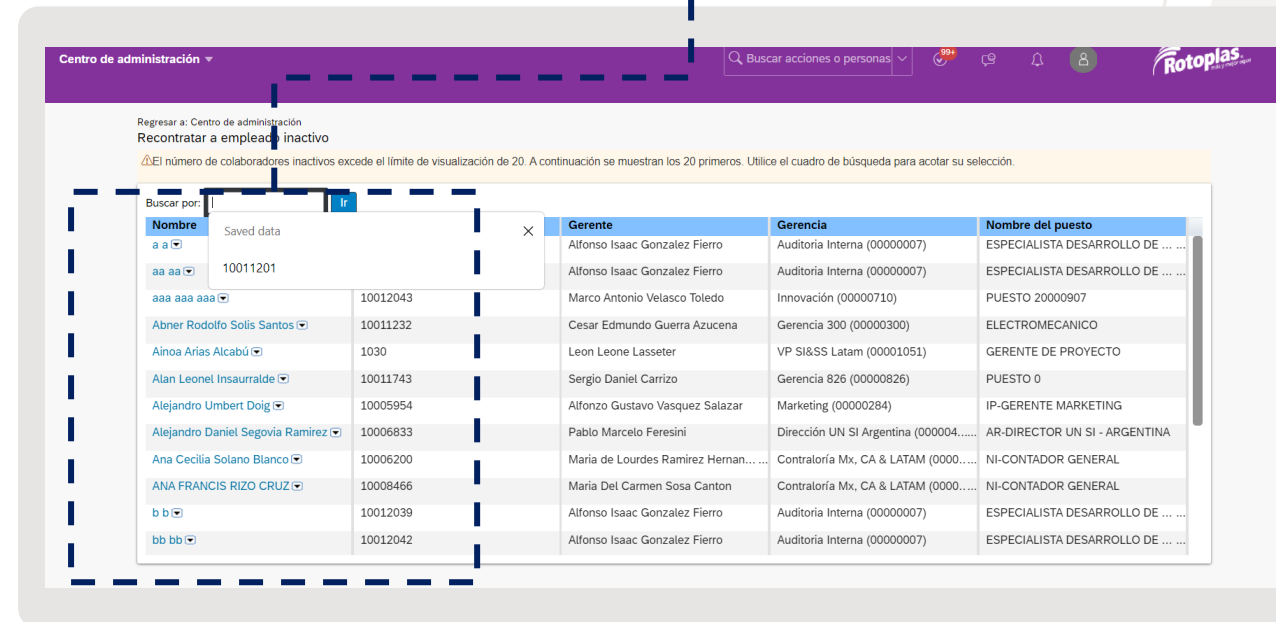

“Rehire” inactive employee
Select the option displayed.

2

Then enter the employee name or number

The information will be displayed at the bottom.
Here, you will select the person to be rehired

REHIRE INACTIVE EMPLOYEE

3

In the name of the employee to be rehired: Click on the arrow to display the options:

- You must always choose the "Rehire Employee" option to maintain the employee number.

The screenshot shows the 'Centro de administración' header with a search bar and navigation icons. Below, the 'Recontratar a empleado inactivo' section displays a search result for employee '10011232'. A dropdown menu is open, showing two options: 'Recontratar empleado' and 'Recontratar con nuevo empleo'.

Nombre	Nombre de usuario	Gerente	Gerencia	Nombre del puesto
Alejandro Soto Santos	10011232	No hay gerente	Gerencia 300 (00000300)	ELECTROMECANICO

Recontratar empleado

Recontratar con nuevo empleo

REHIRE INACTIVE EMPLOYEE

4

The option chosen for this case was “Rehire Employee”

The window displayed in both options will be “Add New Employee”.

It is important that you refer to the Add New Employee manual to complete this registration; however, it will be much easier because some information will already be preloaded.

Just make sure to:

- Update the information.
- Make sure you have the number of the position this employee will fill.
- Fill in all required fields
- The employee number is maintained

REHIRE INACTIVE EMPLOYEE

5 Go to the replication monitor:

- Enter the employee name or number of the employee you have rehired
- Select the three process states:
 - Correct
 - In progress
 - Failed
- Select the replication time

It will show you the status of the movement you made; remember that the platform updates every 5 minutes.

REHIRE INACTIVE EMPLOYEE

6 You must validate in SAP HCM the same infotypes that you validate to add to a new employee (registration from scratch).

In addition, verify that in the infotype 0 the action is "Personnel re-entry"
