

Manual for use Termination (EMPLOYEE LEAVING)

SAP SUCCESSFACTORS

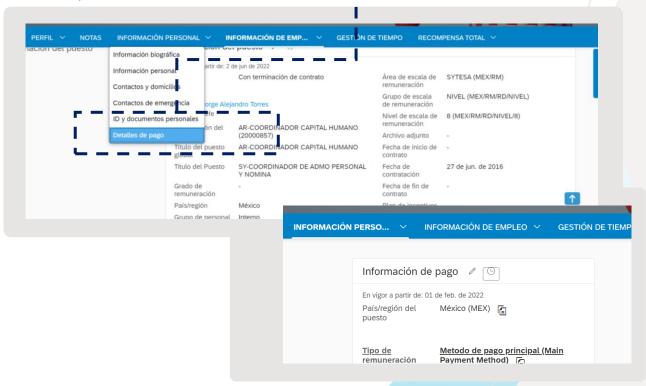

Log in to SuccessFactors

Go to the search bar and enter the name of the employee on whom you will be performing the action

Once you access the employee's profile:

The first thing to do is change their payment method to check and select the Personal Information-Payment Details option

Insert a new record with the termination dateSelect "Check" as Payment Method and then save

If the termination applies on a date where the payroll was already processed and closed, the check date will be with the first day after the new payroll period.

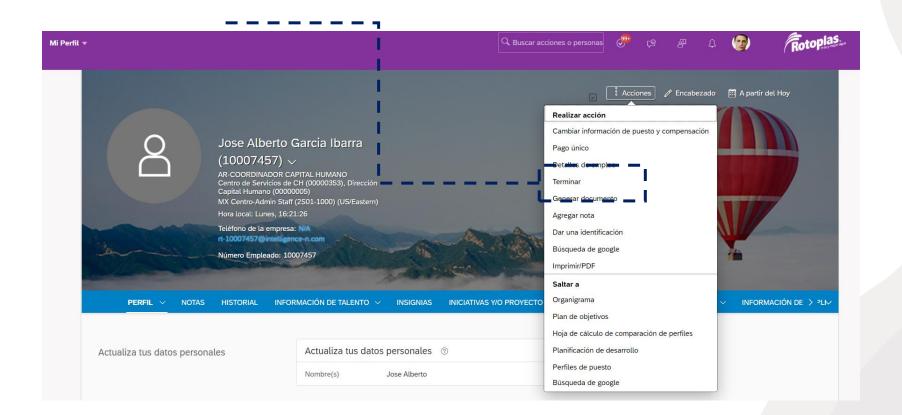

TERMINATION

(EMPLOYEE LEAVING)

4

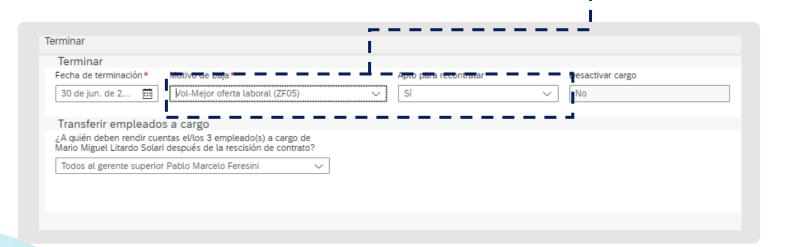

Next, click on the action menu and select the "Terminate" option.

Select the actual termination date, termination reason, and based on termination reason, whether the employee is eligible for rehiring

If the employee has subordinates, they will be transferred to the employee's immediate superior. When the vacant position is filled again, the employees who were assigned to the immediate superior will need to be assigned to the new employee through a change in the report line

Within an attachment, you must add the resignation form signed by the employee.

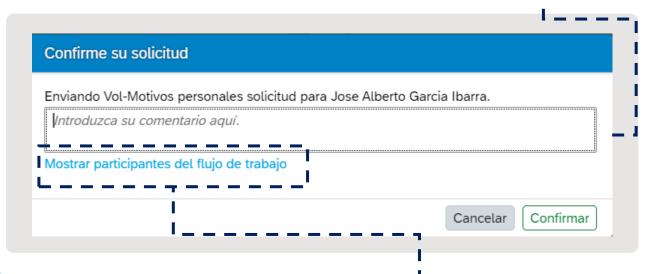

8 Click on "Save"

To confirm the termination you can enter a message to the process approvers and then click

on Confirm

To know the approvers, select "Show Workflow Participants" and then Confirm

Note: If the Manager and/or employee implements the termination, it will be sent to an approval flow. If CH implements the termination, it will be applied without an authorization flow

11

TERMINATION (EMPLOYEE LEAVING)

Once it has been approved, you can validate this information:

Access the employee's profile. "Position Information". The movement appears authorized. For more information click on the blue letters in the change legend

This screen allows you to validate the employee leaving information

If the termination request does not apply and cancellation is required and has not been authorized you can access as follows:

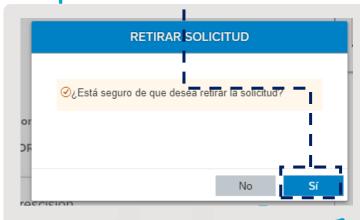

- 1. Access the employee
- 2. Select Position Information
- 3. Within this information, select the information marked in blue.

Consigns the Termination request

Once the application has been canceled, you can validate it in the Position Information section

In SAP-HCM, the change will be displayed in IT 0, 1, 3 and 9:

FINAL CONSIDERATIONS

- Mexico: Terminations can only be applied in the system at most 2 business days after the removal
- Countries: Consider terminations according to your legislation and payroll schedules
- -The system will send an alert to IT to perform the corresponding actions for the email account and accesses
- The settlement form will continue to be used by email:
 Administrative staff: for matters of confirmation of balances and debits
 Operators: Some outstanding payment and/or discount.
 In both cases, indicate the corresponding type of settlement
- **-When applying the termination,** ensure that payroll is not performing a payroll calculation process as it may be locked and not replicated to HCM, at the risk of modifying the payroll. We recommend validating with payroll when it is to be applied.
